

YOUNique Classes Bring Practical Skills and Inspiration to the Cleveland Care Center

At Cleveland Care Center, we're always seeking new ways to empower and uplift our clients. This spring, we launched our Younique Educational Outreach program—a series of special classes designed to educate, inspire, and equip individuals with practical life skills.

In April, Sharon Shackelford led a hands-on cooking class focused on freezer Crock-Pot meals and sheet pan dinners—a hit among attendees looking to simplify mealtime without sacrificing nutrition or flavor. Participants not only learned how to prepare time-saving meals but also left with one ready-to-cook Crock-Pot meal and one sheet pan dinner to take home, making the class as rewarding as it was educational.

In another impactful session, Kristin Ellis of United Community Bank shared her knowledge through a class on Dave Ramsey's Financial Freedom principles. With clarity and encouragement, Kristin helped participants understand how to take control of their finances, build a budget, and start their journey toward a debt-free life.

Kristin Ellis shares smart money strategies based on Dave Ramsey's teachings

These classes are just the beginning. With each session, we're building more than skills—we're building confidence, community, and hope. Stay tuned for more exciting opportunities coming soon!
